ASSIGNMENT:

Prepare a 20-30 minute presentation on a video installation artist whose work you feel is important. In your presentation you should plan to:

- Give an overview of the artist's work with examples of important pieces
- Share your critical assessment of the work (what you think the artist is trying to do and why you think that is interesting)
- Lead the class in a discussion

If you include a screening, plan your presentation to be closer to 30 minutes.
